

Second Lieutenant Richard Lyle

El Paso, Texas | 218-213-1393 | rjlyle00@gmail.com

PROFILE

Recent Signal Officer (2LT) with experience in network engineering, secure computing, and communications seeking to leverage leadership skills and technical expertise in a civilian cybersecurity role. Proven ability to deliver results under pressure, as demonstrated by leading a team to establish a secure network across multiple classifications during an overseas deployment in just 48 hours. Eager to contribute to the leading edge of computer security and make a lasting impact on the field.

EMPLOYMENT HISTORY

United States Army
Second Lieutenant (2LT)

Feb 2025 — Present	G6 Network Operations Officer in Charge (Acting), DTAC, 1AD	Romania
	Selected within three months on active duty to oversee both network and radio communication teams. Acting with the authority and responsibility above my current rank, lead a team of 20 soldiers responsible for the installation network and maintenance of infrastructure across two separate classified systems. Successfully managed and executed complex communication projects, ensuring seamless connectivity and adherence to strict security protocols.	
Nov 2024 — Feb 2025	Signal Platoon Leader, TAC, SIS Co, HHBN, 1AD	El Paso
	Successfully deployed 20 Soldiers and over \$30,000,000 worth of equipment. In charge of integrating and mobilizing key communications equipment and systems in support of the 1 st Armored Division Headquarters. Supervised and executed the sanitation of mission critical platforms and systems, ensuring compliance with current US and European laws and regulations. Adapted to mission objectives despite possessing little hands-on experience with many of the problem sets encountered.	

EDUCATION

Jun 2024 — Nov 2024	Signal Basic Officer Leaders Course	Augusta
Aug 2020 — May 2024	BA of Science and Cyber Science: Physical Systems, United States Military Academy	
	Graduated from the Electrical Engineering, Computer and Cyber Science Department	
	Focus: Physical Systems	
	- Received the Master of the Sword Fitness award - Placed 2nd in Undergraduate Capstone Project Presentation and Competition - Army NCAA Men’s Ice Hockey: Captain (’24) - Built Autonomous Robot and competed in the NASA Astrobotics Competition
